[Radio broadcasting from overseas](#)

Afghanistan

Radio Afghanistan

Radio Afghanistan is the Taliban-operated national radio broadcasting station of Afghanistan. The shortwave transmitter at Pol-e-Charkhi in Kabul (100 kW on 6100 kHz) has been inactive since early 2020.

Chris Greenway commented on Twitter on 13 April 2022: "Been a while since I paid attention to the Afghan radio scene. The Taliban run two stations in Kabul: Main national service: Radio Afghanistan; Local station, formerly Radio Kabul, now renamed Voice of Sharia, whose coverage I see is being expanded to other parts of the country."

Please see the [Afghanistan DX Guide](#) for further schedules and a timeline of radio-related events since the mid-1970's

Australia

Australian Broadcasting Corporation

The Australian Broadcasting Corporation (ABC) is Australia's national broadcaster. The ABC now provides radio, television, online, and mobile services throughout metropolitan and regional Australia and overseas through ABC Australia and Radio Australia. However, all domestic and external broadcasting on shortwave has been discontinued

Domestic HF Licences

Changes were made to Australia's Broadcasting Act in December 2000 to permit Christian Voice International to begin using the Radio Australia shortwave transmitters in Darwin, and to allow HCJB Australia to build a new facility at Kununurra in Western Australia. If a broadcaster wants to target a domestic audience within Australia, all they need do is apply to the Australian Communications Authority for a Domestic HF Licence (DHFL). It costs a few hundred dollars and the lower range frequency allocations are specifically exempt from ITU Regulations.

The frequencies available are anywhere in the range 2300-26100 for broadcasting 'within Australia and its territories' and the following frequency blocks are only available for the DHFL broadcasters: 2300-2495, 3200-3400, 3950-4000, 4750-4995 and 5005-5060 kHz. The power of these stations is typically 1 kW.

Symban World Radio

SWR is based in Sydney, New South Wales, and established in 1997 to serve the Greek community of the city. It operates on mediumwave 1692 kHz and FM, and irregularly on shortwave 2368.5 kHz.

Transmitter Site: Sydney (Leppington), New South Wales.

Time/Days	Language	kHz	kW	Az.
irregular	Greek	2368.5	0.5	ND

David Foster (via WOR iog) comments: Got a reply from Elena Matsouka ([elenamatsouka66 \(at\) hotmail.com](mailto:elenamatsouka66@hotmail.com)), announcer and wife of Director Angelos Matsouka. She says power is "toward 40 Watts at present" (confirmed by a listing in fmScan.org). New address is 608 New Canterbury Road, Hurlstone Park (Sydney) and she says the antenna is at that address. On google street view (February 2021 pic) #608 shows Helmos House, a 2 storey building with an antenna mast with guy ropes on top. Helmos Association is a philanthropic group and an associated company is Hellenic Australia Radio at 825 New Canterbury Road, with the same phone number as Radio Symban. A google street view of #825 (again Feb 21) shows buildings demolished and new construction beginning. Maybe Radio Symban was there once. It's not the same station as Hellenic Radio which is on 1683 in Sydney and Melbourne. R. Symban's Facebook page gives its address as 867 New Canterbury Road but google street view shows it's for lease and looking decidedly empty. Scrolling down Symban's Facebook page you can see shopfront photos of the previous Radio Symban building, presumably once at #825, with a sign showing 93.3 FM (not any more!), and heaps of photos of Elena - you can see a clip of her announcing on 16 August 2021 and a few earlier clips of her too. Apart from 2368.5 (talk a few years ago claimed the transmitter was made in Greece), the station is listed to operate on 1692 from Wedderburn near Campbelltown in western Sydney with 120 Watts, plus it broadcasts online on 8 different livestreams with an audience in Greece apparently just as important as the Sydney audience. (David Foster, Mansfield, Vic, Australia, 7 February 2022, WOR iog)

Unique Radio

Unique Radio was started on shortwave by its owner Tim Gaynor in 2016. Tim has a background in community radio and his station provides a variety of programming not necessarily heard on mainstream media.

Transmitter Site: Manilla, New South Wales.

Time/UTC	Days	Language	kHz	kW	Az.
0800-1300	Wed-Sun	English	3210	1	ND

Bay Islands Radio

Bay Islands Radio broadcasts from a low-power shortwave transmitter at Macleay Island, Queensland, with an oldies music format.

Transmitter Site: Macleay Island, Queensland.

Time/UTC	Language	kHz	kW	Az.
to be confirmed	English	5045	0.15	ND

David Foster (via WOR iog) comments: Hearing this at 1555 on 31 January reminded me that operator Shannon Shuttleworth told me in March 2021 that the transmitter used to be at his mate's house on Macleay Island, in southern Moreton Bay near Brisbane. Shannon himself lived on Russell Island about 4 km away. He said both he and his mate had to move. At that stage the antenna was too low and the power was 180-200 Watts. However, now the transmitter has moved to Russell Island where Shannon lives, presumably on a higher point of the island that he had been searching for. 5045 replays audio fed to 88.0 FM. According to Island FM's Facebook page, it looks like the station came on air at its new location on 8 November 2021. Shannon complained that ACMA (Australian Communications and Media Authority) hasn't updated his licence yet. (David Foster, Mansfield, Vic, Australia, 7 February 2022, WOR iog)

Radio 4KZ

Located in Innisfail since 1967, Radio 4KZ covers the tropical coast of Far North Queensland on 531 kHz and FM. Its shortwave transmitter was launched

on 20 December 2017 to serve the remote areas of north Queensland.

Transmitter Site: Innisfail, Queensland.

Time/UTC	Days	Language	kHz	kW	Az.
2000v-1000v	Daily	English	5055	1	ND

International broadcasting on shortwave

Reach Beyond Australia

Since 2003, Reach Beyond (formerly HCJB) has been transmitting from their broadcast facility in the Kimberley, in far north Western Australia, to the Asia Pacific region through shortwave radio, and currently broadcasts in 24 languages.

Transmitter site: Kununurra, Western Australia - 3 x 100 kW.

Hobart Radio International

Hobart Radio International (The Voice of Tasmania) is a shortwave community service relayed across the globe via shortwave and FM in New Zealand. They describe themselves as "the voice for Tasmania, and will always be developing and different. Crossing the borders since 2004, telling the unknown and investigating on what's important". Regular programming has been disrupted due to the Covid situation in Tasmania and the schedule for A22 is still to be confirmed.

Bangladesh

Bangladesh Betar - Home Service

The Bangladesh Betar Home Service has nationwide coverage on mediumwave, shortwave and FM. It appears to be only on air for a limited period of time on shortwave nowadays.

Transmitter Site: Savar, Dhaka District.

Target area: Bangladesh domestic audience.

Time/UTC Days Language kHz kW Az. Notes

1100-1150 Daily Bengali 4750 100 ND time to be confirmed

International broadcasting on shortwave

Bangladesh Betar - External Service

Bangladesh Betar's External Service had a new Thomson 250 kW shortwave transmitter and rotatable antenna system installed at Khabirpur in 2012. However, since March 2019, the external service has not been heard on any of its usual shortwave frequencies from Khabirpur and has been using the domestic service facilities at Savar on 4750 kHz instead.

Transmitter Site: Savar, Dhaka District.

Target area: Foreign listeners in the areas surrounding Bangladesh (i.e. mainly South Asia)

Bhutan

Bhutan Broadcasting Service

BBS is currently inactive on shortwave. It had broadcast on 6035 kHz daily from 0555 to approximately 1900 local time (0000-1300v UTC), but was last reported by Ron Howard in November 2020.

China

China Media Group

China Media Group, also known as Voice of China, is the predominant state media company for radio and television broadcasting in the People's Republic of China. It was founded on 21 March 2018 as a national holding firm for China Central Television, China National Radio, and China Radio International. China Media Group is under the control of the Publicity Department of the Chinese Communist Party.

China National Radio

CNR is the state-operated radio service of the Peoples Republic of China. It forms the national radio service of the state-owned China Media Group, continuing its mission to broadcast a variety of radio programmes to listeners all over China and around the world.

CNR-1 - Voice of China, News Radio

Voice of China is the flagship radio station of CNR, broadcasting mainly news and commentaries.

Target area: China - domestic audience.

Silent period: Tuesday 0600-0900.

Xizang Radio & TV Station - China Tibet Broadcasting station

The Tibet Autonomous Region or Xizang Autonomous Region, called Tibet or Xizang for short, is a province-level autonomous region of the People's Republic of China in Southwest China. It was overlayed on the traditional Tibetan regions of Ü-Tsang and Kham. The Tibet Autonomous Region is located on the Tibetan Plateau, the highest region on earth. Mount Everest is located on Tibet's border with Nepal. China's provincial-level areas of Xinjiang, Qinghai and Sichuan lie to the north, northeast and east, respectively. There is also a short border with Yunnan Province to the southeast. The countries to the south and southwest are Myanmar, India, Bhutan, and Nepal. The ethnic composition of Tibet is 90% Tibetan and 8% Han.

Chinese Service

Transmitter site: Lhasa, Xizang (Tibet).

Silent period: Tuesdays 0600-1000.

DRM broadcasting in China

CNR-1 DRM Transmissions

B21 schedule of CNR "Voice of China" DRM test transmission is as follows.

Transmitting Power 30kW. "3FF", "3EA" etc. are the transmission identification codes.

<i>kHz</i>	<i>Transmitter site</i>	<i>kW</i>	<i>Az.</i>	<i>CIRAF</i>	<i>Time/UTC</i>	<i>ID code</i>
6030	Beijing	30	ND	43NE,44NW	2025-1805	3FF
9655	Urumqi, Xinjiang	30	098	43NE,44NW	0800-1200 and 2200-0100	3EC
11695	Dongfang, Hainan	30	041	44S	0100-0900	3E8
11990	Qiqihar, Heilongjiang	30	225	43NE,44NW	0400-0900	1
13710	Qiqihar, Heilongjiang	30	203	44S	0900-1200	1
13825	Beijing	30	175	44S	0100-0900	3EA
13850	Qiqihar	30	225	43NE,44NW	0000-0400	1
15180	Kunming, Yunnan	30	032	43NE,44NW	0100-0400 and 0800-1100	2
17770	Dongfang, Hainan	30	016	43NW,44NE	0100-0900	3ED
17800	Kunming, Yunnan	30	032	43NE,44NW	0400-0800	2
17830	Urumqi, Xinjiang	30	098	43NE,44NW	0100-0800	3EC

Additional test transmission using the HFCC registered CRI frequencies of Kunming transmitter site. Power 150 kW, 135° (CIRAF 55,59,60) transmission identification code 3F9:

0100-0300 on 12020 kHz

0300-0500 on 13740 & 15590 kHz

0500-0900 on 15590 & 15695 kHz

(cahcn.github.io, 26 March 2021, via Takahito Akabayashi, Tokyo, Japan, WOR iog, with updates for A22 made by referring to current HFCC registrations)

International broadcasting on shortwave

China Radio International

China Radio International (CRI) is a state-owned international radio broadcaster of China. It is headquartered in the Babaoshan area of Beijing's Shijingshan District. It was founded on December 3, 1941, as Radio Peking. It later adopted the pinyin form Radio Beijing. It has 32 overseas correspondent bureaux and 6 main regional bureaux, and broadcasts over 2,700 hours of programming each day (24 hours in English), including news, current affairs, and features on politics, the economy, culture, science and technology. Its overseas reporting involves 65 languages. More than 50 shortwave transmitters are used to cover most of the world.

CRI notes:

- The Cërrik transmitting station in Albania is leased to CRI. However, since the A20 season no broadcasts have been heard despite frequencies having been registered with HFCC. These are excluded from this schedule.
- Transmissions in several languages now consist of music only - there is no actual programming. To identify these easily a content column has been added below (C.) with P indicating normal programmes and M for music only.
- "China Radio Plus", the global English service of China Radio International, renamed "CGTN Radio" on December 14, 2021. Also the slogan of the service "Connecting with China and the World" was replaced with "Hear the difference", which corresponds to CGTN's slogan "See the difference". Along with this, the percentage of "CGTN Radio" in the contents of 24H CRI English AM service in Beijing (846kHz, 10kW) has been increased. The original article is at <https://cahcn.github.io/posts/2021-12-17-CGTN-Radio.html>. By the way, CGTN is the abbreviation of "China Global TV Network", which was set up in December 31, 2016, for Chinese global TV propaganda. (Takahito Akabayashi, Tokyo, Japan, 27 December 2021 via World of Radio iog)

Voice of Jinling

The Voice of Jinling is located in Nanjing and broadcasts to the surrounding area on 99.7 FM. It is also aired on shortwave 6200 kHz between 1230-1505 reportedly for listeners in Taiwan.

Transmitter site: Nanjing, Jiangsu.

Target area: Taiwan

Time/UTC	Days	Language	kHz	kW	Az.	CIRAF
1230-1505	Daily	Chinese	6200	100	159	44S

Target broadcasts to China

The following broadcasts are all jammed by China, either in the form of a co-channel transmission of CNR-1 or a continuous loop of Firedrake music. Please take care when trying to identify the correct station, it could be CNR-1!

Voice of America and Radio Free Asia broadcasts to China

Voice of America and Radio Free Asia broadcast in Chinese, Cantonese, Tibetan and Uighur. RFA operates under a US Congressional mandate to deliver uncensored, domestic news and information to China, Tibet, and other places in Asia with poor media environments and few, if any, free speech protections. Broadcasts in Chinese, Cantonese, Tibetan and Uighur all draw the wrath of the Chinese government.

Voice of Tibet

Voice of Tibet is a radio station based in Norway transmitting shortwave radio programmes in the Tibetan language as well as Mandarin Chinese. The station began broadcasting on 14 May 1996 and was founded by three Norwegian NGOs: Norwegian Human Rights House, The Norwegian Tibet Committee and Worldview Rights. Its broadcasts target Tibet and China as well as India, Bhutan and Nepal. It receives funds from the United States National Endowment for Democracy.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.
1300-1400	Daily	Tibetan	moves between 9864 and 9899	Dushanbe, Tajikistan	100	131
2300-0000	Daily	Tibetan	moves between 7476 and 7496	Dushanbe, Tajikistan	100	131

Voice of Tibet moves frequency regularly to avoid the Chinese jammer that follows it ...

Sound of Hope

Sound of Hope (SOH) is an international Chinese-language radio network. Along with New Tang Dynasty Television and The Epoch Times, it is part of a network of media organisations established by practitioners of the Falun Gong new religious movement. SOH serves the Chinese diaspora in US, Europe, Australia, Japan and South Korea on mediumwave and FM and broadcasts to China on an extensive number of out-of-band shortwave frequencies. Programmes are in Chinese and Cantonese, and also include relays of Radio Free Asia at times.

Transmitter sites: Pingtung and Miaoli, Taiwan (and possibly another) - all transmitters are low power - 1 kW or less.

Frequencies: The frequencies and times below are those listed in the [Nagoya DXers Circle](#) shortwave schedule.

Target area: China.

Jamming: most frequencies will be jammed by a co-channel transmission of CNR-1 from Mainland China, which in most cases will be the dominant signal when listening from afar. See Ron Howard's tips below on how to distinguish between SOH and CNR.

Identifying Sound of Hope (Taiwan) vs CNR-1 jamming

Sound of Hope (SOH) is quite often jammed by a transmission of China National Radio's CNR-1 service from Mainland China. Ron Howard offered some tips on how to identify SOH in a post to the WOR iog on 17 May 2021.

For me, it has always been fun trying to tie down if a station heard is really a Sound of Hope reception or just the CNR-1 program jamming. Here are a few suggestions, based on my years of observations:

- 1) One positive way is to listen at the top-of-the-hour. **CNR-1 programming always has time pips, while SOH never has any.**
- 2) Find a known CNR-1 frequency, that is to say a non-jamming frequency (I use 6125 kHz.), then check to find if it is // to the station in question.
- 3) SOH is a religious station, so has a more refined format. At ToH usually has news and then a lot of monologues. Rather rare to hear music. While the CNR-1 format is fairly contemporary; many short segments; often with music; in general has a much more upbeat format than SOH.
- 4) After many years of listening to SOH, I find their audio slightly muffled; not a lot, just enough to be noticeable, especially when compared to the crisp audio of CNR-1.
- 5) It is not uncommon for SOH to be slightly off-frequency; while CNR-1 is on the exact frequency (xx.00).
- 6) Finally, if the station in question has fair to good reception, it almost certainly is CNR-1 jamming. SOH stations use rather low power, hence fair-good reception would be extremely rare.
- 7) If you are fortunate enough to actually hear SOH, their top-of-the-hour ID is "**Xiwang zhi sheng guoji guangbo diantai**" (Sound of Hope international broadcast station), given twice (once by OM and once by YL), then into the news. My audio of a typical ToH SOH ID format is posted at <http://bit.ly/3l6V2kn>.

Ron Howard, 17 May 2021 via WOR iog.

Guam

International broadcasting on shortwave

KSDA - AWR Asia/Pacific

KSDA is the AWR Asia/Pacific relay station based on Guam, which started shortwave broadcasting in 1987.

Transmitter site: Agat - 5 x 100 kW.

2nd/4th Sundays: Tamil, Telugu and Hindi

5th Sunday: Tamil

India

All India Radio

All India Radio, officially known as Akashvani, is the radio broadcaster of India and a division of Prasar Bharati (Broadcasting Corporation of India), an autonomous corporation of the Ministry of Information and Broadcasting.

All India Radio Regional Stations on shortwave

All India Radio regional stations broadcast in Hindi, English and the principal languages of the respective states and Union Territories. As well as programmes originating from regional studios, the regional stations also relay news broadcasts and Network programmes from Delhi. After further closures on 31 December 2021 (namely AIR Srinagar on 4950 & 6110 kHz and AIR Jeypore on 5040 kHz), the last remaining regional station on shortwave is AIR Leh.

Ladakh - AIR Leh

Ladakh is a region administered by India as a union territory, and constitutes a part of the larger Kashmir region, which has been the subject of dispute between India, Pakistan, and China since 1947. It was established on 31 October 2019, following the passage of the Jammu and Kashmir Reorganisation Act. Ladakh is bordered by the Tibet Autonomous Region to the east, the Indian state of Himachal Pradesh to the south, both the Indian-administered union territory of Jammu and Kashmir and the Pakistan-administered Gilgit-Baltistan to the west, and the southwest corner of Xinjiang across the Karakoram Pass in the far north. It extends from the Siachen Glacier in the Karakoram range to the north to the main Great Himalayas to the south. The eastern end, consisting of the uninhabited Aksai Chin plains, is claimed by the Indian Government as part of Ladakh, and has been under Chinese control since 1962.

Transmitter Site: Leh, Ladakh.

Regional Zone: North;

Languages: Ladakhi, Hindi, English, Balti, Tibetan, Urdu

Japan

Radio Nikkei

Radio Nikkei is Japan's nationwide free-to-air shortwave commercial radio station. It is operated by Nikkei Radio Broadcasting Corporation, whose main share is held by Nihon Keizai Shimbun and Tokyo Stock Exchange. The language is almost exclusively in Japanese except for an English language learning programme. The station features the following four genres as the core of its programming: finance, JRA horse racing (weekends), health-medical, and culture.

Radio Nikkei 1

Radio Nikkei 1 is for general programmes and eastern Japan horse-racing coverage.

International broadcasting on shortwave

KDDI Corporation

KDDI Corporation is a Japanese telecommunications operator formed on 1 October 2000 through the merger of DDI Corp. (Daini-Denden Inc.), KDD (Kokusai Denshin Denwa) Corp. (itself a former listed state-owned enterprise privatized in 1998), and IDO Corp. It has its headquarters in the Garden Air Tower in Iidabashi, Chiyoda, Tokyo. KDDI provides mobile cellular services using the "au by KDDI" brand. ISP network services are provided under the au one net brand, while "au Hikari" is the name under which long-distance and international voice and data communications services and Fiber to the Home (FTTH) services are marketed.

Transmitter site: Yamata, Ibaraki Prefecture - 4 x 100 kW; 7 x 300 kW.

NHK World-Japan

NHK World-Japan is the international service of Japan's public media organisation NHK. It provides the latest information on Japan and Asia through television, radio and online to a global audience.

JSR Shiokaze

The transmitters at Yamata are also used for shortwave broadcasts to North Korea on behalf of JSR Shiokaze. Programmes concentrate on the abduction issue of Japanese citizens by North Korea and include information on Japanese policy on North Korea and the abduction issue, messages from relatives and friends of the abductees, and familiar Japanese songs. See the entry below for North Korean target broadcasts for the schedule.

Why Yamata transmitters can not broadcast the program of "Furusato no Kaze"

Ron Howard made a very useful comment on the WOR iog on 10 June 2021: "It might be worthwhile to be reminded of a past posting by Glenn, with info from online":

Currently 3 programs "Shiokaze", "Furusato no Kaze" and "Nippon no Kaze" are broadcast towards North Korea from VT Communications, and only "Shiokaze" is transmitted from Yamata. Why can't the Yamata transmitter send the message of "Furusato no Kaze" towards North Korea?

Japanese law on broadcasting says only NHK can broadcast "international service". And government controlled the license of broadcasting – it is quite difficult to get the permission (license) of broadcasting promptly.

At the opening announcement of Shiokaze, they announce call sign as JSR. Exactly speaking, JSR is not call sign for "general" radio stations. Shiokaze got a license for a "special utility broadcast" - the same as Traffic Information Service Radio on 1620 kHz - not for "general broadcast". [So Shiokaze is not really a "clandestine" station - Ron]

In the case of "Furusato no Kaze", they get neither the license of "utility broadcast" nor "general broadcast". And NHK reject the proposal of Japanese government to broadcast "Furusato no Kaze" within the program of Radio Japan. Thus Yamata transmitter can not send message of "Furusato no Kaze." [nor can they broadcast "Nippon no Kaze" - Ron]

Korea (North)

Radio and Television Broadcasting Committee of the Democratic People's Republic of Korea

The Radio and Television Broadcasting Committee of the Democratic People's Republic of Korea is the state-owned broadcaster of North Korea. The committee is under the Cabinet of North Korea, but its personnel is chosen and appointed by the Propaganda and Agitation Department (PAD) of the Workers' Party of Korea. All three major television stations and 200 radio stations are controlled by the committee. The exceptions are Pyongyang FM Broadcasting Station, Pyongyang Broadcasting Station, and the Voice of National Salvation, which are under the United Front Department of the Workers' Party of Korea instead. The committee also controls the Korean Central News Agency.

Korean Central Broadcasting Station

The Korean Central Broadcasting Station (KCBS) is the main domestic radio network in the DPRK. It sits under the Central Broadcasting Committee of the DPRK. KCBS broadcasts from 5am to 3am local time via a network of mediumwave and shortwave transmitters that cover the nation. The powerful transmissions can easily be heard in neighbouring countries, including South Korea where some of its frequencies are jammed. It is also relayed at certain times via the Voice of Korea, the DPRK's international shortwave service. A central programme is broadcast from Pyongyang on most transmitters through the entire broadcast day, but some are reported to carry regional programming between 2pm and 3pm. All programming is in Korean and includes music, talk and news. Main news bulletins are broadcast at 6am, 7am, 10am, midday, 3pm, 5pm, 8pm, 9pm and 10pm. (description as per Martyn Williams, northkoreatech.org, 3 November 2010, although still appears valid despite the age)

Schedule: 2000-1800 UTC, daily, in Korean.

Target area: North Korea - domestic audience.

International broadcasting on shortwave

Voice of Korea

Voice of Korea is the international broadcasting service of North Korea. Until 2002 it was known as Radio Pyongyang. Most of the broadcasts are transmitted from the Kujang shortwave transmitter site, approximately 25 km from the city of Kujang. A transmitter site in Kanggye is used as well.

North Korea does not make any registrations with the HFCC so the schedule below has been compiled with reference to Ivo Ivanov's Bulgarian DX blog, Nagoya DXers Circle (Aoki) and Eike Bierwirth's EiBi list

Target broadcasts on shortwave to North Korea

JSR Shiokaze (Sea Breeze)

Shiokaze (Sea Breeze) broadcasts to North Korea and is operated by the independent investigating organisation "Investigation Commission on Missing Japanese Probably Related to North Korea", regarding persons believed to have been abducted by North Korea prior to 1983. The daily shortwave radio programme broadcast from Tokyo highlights the plight of those who were kidnapped. It is compiled in an office owned by the group which campaigns to keep the issue in the public eye and supports the families of those abducted. JSR Shiokaze radio is broadcast twice a day for 30 minutes. There are editions in Japanese, Korean, English and Chinese, and they include the latest news about the abduction issue, messages to those abducted and appeals for help in finding them.

Frequencies: please note that frequencies are rotated on a monthly basis. Those listed below are the ones in use at the time of editing but will change to alternatives in the range 5920-7295.

Schedule effective since 27 March 2022

Language schedule

1300-1330 and 1600-1630	Mon/Tue/Sat/Sun	in Japanese
1300-1330 and 1600-1630	Wed/Fri	in Korean
1300-1330 and 1600-1630	Thu	in English
1330-1400 and 1630-1700	Mon/Tue	in Japanese
1330-1400 and 1630-1700	Wed/Fri/Sat/Sun	in Korean
1330-1400 and 1630-1700	Thu	in English

1405-1435 Daily in Japanese. The daily broadcast at 1405-1435 starts and ends with announcements from Shiokaze but the actual programme content is from Furusato no Kaze (see schedule below for other broadcasts from Furusato no Kaze)

The 1705-1800 broadcast was added on 31 March 2022. The programme has the same composition as at 1405, with "Shiokaze" announcements at the beginning and end. The first programme is "Furusato no Kaze" in Japanese produced by the Japanese government, followed by "Nippon no Kaze" in Korean for the latter half.

Nippon no Kaze / Furusato no Kaze

Nippon no Kaze and Furusato no Kaze (Wind from Japan and Wind from the Homeland) are programmes broadcast in Korean and Japanese to the DPRK. Content includes information on Japanese policy on North Korea and the abduction issue, messages from relatives and friends of the abductees, and familiar Japanese songs.

Voice of America and Radio Free Asia

Voice of America (VOA) is an American international broadcaster funded by the United States Congress. It is the largest and oldest U.S. funded international broadcaster. VOA produces programmes for audiences in North Korea. Radio Free Asia operates under a US Congressional mandate to deliver uncensored, domestic news and information to several countries in Asia with poor media environments and few, if any, free speech protections. This includes North Korea.

Voice of the Martyrs

Voice of the Martyrs is a Christian broadcasting service aimed at North Korea. The VOM website states "We've recently been updating the way in which we broadcast into NK. We learned that TV news broadcasting in NK has more of the sound of our old style broadcast but radio broadcasting in NK is using warmer personal voices these days. Our broadcast is pioneering the use of a combined NK/SK announcing corps, with NKs and SKs interacting about the Bible and the Christian faith in friendly voices".

Kyrgyz Radiosu (Second Programme)

Kyrgyz Radiosu is the Second Programme of KTRK with an emphasis on culture and education. The last report of Kyrgyz Radio 2 on 4820 kHz (Bishkek-Krasnaya Rechka - 15 kW) appears to have been in early 2020 and the service is assumed to be inactive now on shortwave.

International broadcasts on shortwave

Kyrgyztelekom shortwave transmitter

This low power shortwave transmitter at Krasnaya Rechka (reported to be 15 kW) is owned and operated by Kyrgyztelekom. It is heard with a relay of "Sedaye Zindagi" (Voice of Life), a Christian programme of Pamir Ministries in Dari for listeners in Afghanistan, which is preceded by a Christian programme that appears to be in a Central Asian language (presumably unrelated to Pamir Ministries).

Transmitter site: Bishkek-Krasnaya Rachka, Kyrgyzstan.

<i>Time/UTC</i>	<i>Days</i>	<i>Service</i>	<i>Language</i>	<i>kHz</i>	<i>kW</i>	<i>Az.</i>	<i>Target area</i>
1500-1600	Daily	unknown religious programme	Central Asian?	5130	15	ND	Central Asia?
1600-1800	Daily	Sedaye Zindagi	Dari	5130	15	ND	Afghanistan

Laos

Lao National Radio

Lao National Radio is the national radio station of Laos. The transmitter of LNR on 6130 kHz (Vientiane 50 kW) has not been reported since 2020. It was scheduled at 2200-0800 and 0900-1630 and included foreign language programmes in Chinese (1400-1430), English (1430-1500), French (1500-1530), Thai (1530-1600) and Vietnamese (1600-1630).

On 8 May 2021, Ron Howard wrote: "6130, LNR. Recently emailed the Director General of Lao National Radio (Phosy Keomanivong), saying in part: "For a long time now I have noted the absence of LNR on SW. I hope that you will again be able to transmit on 6130 kHz. in the near future. Your presence on SW is greatly missed!" No reply yet. Thanks to Mauno Ritola, for his encouragement to contact LNR. Now with the temporary absence of Xizang PBS (Tibet - Lhasa), it is especially clear that LNR is not broadcasting on 6130". *(Xizang PBS is back on 6130 kHz after its temporary absence but LNR has sadly not returned - TR)*

Malaysia

Sarawak FM

Sarawak FM (formerly known as Radio Malaysia Sarawak (RMS) is a Malay language-state radio station operated by Radio Televisyen Malaysia. The station covers the whole of Sarawak with a 24 hour broadcast which airs Malaysian and international music. Sarawak FM is also relayed on shortwave.

Transmitter site: Kajang, West Malaysia.

Target area: Malaysia - domestic audience.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>	<i>kW</i>	<i>Az.</i>	<i>CIRAF</i>
2200-1400	Daily	Malay	9835	100	093	54NE

Wai FM

Wai FM is a, Iban-language radio station in Sarawak operated by Radio Televisyen Malaysia. RTM caused outcry in August 2020 when it switched from the existing programme format that was popular with Iban-speaking listeners in the state and the decision was quickly reversed when Malaysian government ministers intervened.

Transmitter site: Kajang, West Malaysia - 100 kW.

Target area: Malaysia - domestic audience.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>	<i>kW</i>	<i>Az.</i>	<i>CIRAF</i>
2200-1400	Daily	Iban	11665	100	025	44N,45NW

Maldives

Target broadcast to the Maldives

Voice of the Martyrs

VOM Korea has started a daily broadcast to the Maldives. VOM states "The Maldives is one of the most restricted nations in the world, with fewer than 10 known believers. Any Maldivian who follows Christ must remain secret or face arrest or expulsion from the country. The Maldivian government seeks to eliminate or greatly minimize outside influences on their cultural identity, which includes complete commitment to Islam". It goes on to say that "VOM uses creative, secretive methods to share the gospel inside the Maldives". In an email to Glenn Hauser, Pastor Dillmuth confirms the new broadcast to the Maldives and says "It is currently in English, but we hope to have more and more content in Dhivehi shortly. Due to our agreement with our radio broadcast partner, we are unable to share the location of the transmission.

Transmitter Site: unconfirmed.

<i>Schedule</i>	<i>Days</i>	<i>Languages</i>	<i>kHz</i>
1500-1530	Daily	English and Dhivehi	11620

Voice of the Martyrs noted in Dhivehi for the first time on 28 April 2022 by Jose Jacob. Previously it was just in English.

Federated States of Micronesia

The Cross

The Cross is the radio station of Pacific Missionary Aviation. Their website says that the shortwave service "is currently down as we are awaiting an engineer and parts". Its assigned frequency is 4755 kHz.

Mongolia

Mongolian National Broadcaster

The Mongolian National Broadcaster (MNB) is the official state-funded broadcaster in Mongolia.

P3 - FM 100.9

P3 is a domestic radio service of MNB and the most recent to have been broadcast on shortwave in recent times. The last observed frequencies were 4895 kHz (Moron 10 kW) and 7260 kHz (Khonkhor 50 kW). It had not been reported since October 2020 until Ron Howard had this observation:

4895 kHz, 13 March 2022, UNID [suspect Mongolian Radio], first noted at 1133 with definite carrier; later at 1240 carrier was much stronger, but unable to make out any audio; this format is consistent with their past receptions here; checked for their // 7260, but that was blocked with a strong station. I daily check 4895 and it has been a long time since I last heard anything. Might be worthwhile to check this frequency. (Ron Howard, Asilomar State Beach, Calif.); Hi Ron, thanks, yes, Mongolia heard also weak here in Finland at 1415. (Mauno Ritola).

International broadcasts on shortwave

Voice of Mongolia

Voice of Mongolia is the official international broadcasting station of Mongolia, operated by MNB.

Transmitter site: Ulaanbaatar - 250 kW; Voice of Mongolia is also heard on Shortwaveservice in Germany.

2300-1700	Daily	Minority languages	5915

Thazin Radio

Thazin Radio is operated by the Burmese military. It is based in Pyin Oo Lwin, a scenic hill town in the Mandalay Region, which has approximately 10,000 Indian and 8,000 Gurkha inhabitants who settled there during British rule. Today, Pyin Oo Lwin has a thriving Eurasian community, consisting mostly of Anglo-Burmese and Anglo-Indians. There is also a diverse mix of Chinese, Chin, Kachin, Karen, Shan, Bamars (Burmese) and communities.

Main Programme

Transmitter site: Pyin Oo Lwin, Mandalay Region - 50 kW.

Selected target broadcasts to Myanmar

Voice of America and Radio Free Asia

Voice of America (VOA) is an American international broadcaster funded by the United States Congress. It is the largest and oldest U.S. funded international broadcaster. VOA produces programmes for audiences in Burma. Radio Free Asia operates under a US Congressional mandate to deliver uncensored, domestic news and information to several countries in Asia with poor media environments and few, if any, free speech protections. This includes Burma.

Target area: Burma & environs.

Mizzima Radio

From mizzima.com: Mizzima, derived from the Pali for middle or moderate and chosen for its inference of an unbiased and independent media, was established in 1998 in New Delhi, India, by veterans of Myanmar's 1988 pro-democracy uprising. Founder Soe Myint and co-founder Thin Thin Aung participated in the movement for democracy and they were in exile in India as refugees. Since its founding the aim of Mizzima has been to provide high quality news relating to Myanmar while contributing toward freedom of expression and the realization of an inclusive and democratic Myanmar for all the country's peoples. Mizzima operated for nearly 15 years as an exile-based media organization, with a liaison office in Chiang Mai, Thailand, complimenting the organization's headquarters in India. However, in the wake of domestic reforms in Myanmar implemented following the onset of parliamentary governance in 2011, Mizzima, in 2012, became the first formerly exile-based media organization to gain incorporation as a local media entity, registering in Myanmar as Mizzima Media Co. Ltd.

Today, Mizzima produces an array of multi-media products and can claim to be one of the top five private media houses in Myanmar. Our current production lines include our long-standing Burmese and English language websites (www.mizzimaburmese.com and www.mizzima.com) along with a digital daily newspaper in Burmese and weekly English language magazine. Moreover, in 2017 Mizzima was awarded one of five licenses to operate an independent Free-to-Air digital TV channel (www.mizzima.tv). This crowning achievement is further recognition of Mizzima as a major media power in Myanmar, buttressing our national outreach and influence. Ivo Ivanov in his Bulgarian SW blog reported a new station to Myanmar on 9 December 2021 and Rob Wagner identified it as Mizzima Radio on 11 January 2022:

Target area: Burma & environs.

Time/UTC	Days	Languages	kHz	Transmitter site	kW	Az.	CIRAF

Nepal

Radio Nepal

Radio Nepal is the state-owned radio broadcasting service of Nepal. The shortwave transmitter that last operated on Radio Nepal's longstanding frequency of 5005 kHz has been decommissioned. It was last reported in early 2019.

New Zealand

International broadcasts on shortwave

RNZ Pacific

RNZ Pacific (formerly Radio New Zealand International or RNZI) is a division of Radio New Zealand and the official international broadcasting station of New Zealand. It broadcasts a variety of news, current affairs and sport. The station's mission statement requires it to promote and reflect New Zealand in the Pacific and better relations with Pacific countries.

Transmitter site: Rangitaiki - 1 x 100 kW (operating at 50 or 100 kW); 35 kW DRM.

Pakistan

Radio Pakistan

Radio Pakistan shortwave transmissions are currently suspended. The Ministry of Information and Broadcasting website currently says: "World and External services broadcasts programs for six hours daily in six foreign languages and designed to cover Asia. These languages are Persian, Dari, Bangla, Chinese, Pashto (Afghani), Hindi, Hazargi. Presently these programmes are streamed only and also available on the Mobile App. World Service broadcasts programs for 8 hours in Urdu language for Overseas Pakistanis in Middle East and Europe".

Azad Kashmir Radio

The Pakistan Broadcasting Corporation broadcasts a dedicated Kashmir-focused service from three stations, including the Trarkhal Programme which broadcasts on shortwave.

Transmitter site: Islamabad, Pakistan.

Target area: Azad Kashmir - domestic audience.

Time/UTC	Days	Language	kHz	kW	Az.
0900-0945	Daily	Urdu/Kashmiri	7265	100	ND

Wolfgang Bueschel reported on 4 October 2021: Surprisingly after a very long break time, I heard Azad Kashmir Radio Urdu/Kashmiri language service on 7264.94 from Islamabad Rewat center today at 0905 UTC via the remote Perseus server in Delhi. S=7-8 fair signal, 100 kW and other details visible according WRTH 2021 on page 307. (posted by WB to BDXC iog); Presumed Azad Kashmir Radio observed on 5 October 2021 from 0900-0945 on 7265 kHz using online KiwiSDR at Multan, Pakistan. (monitoring by Tony Rogers)

Palau

Hope Radio

The shortwave station on the island of Palau was founded by George Otis Sr. of Highmark Ministries and later sold to LeSEA Broadcasting under the late Dr. Lester Sumrall's ministry. As of September 2020, Joe Perozich became the CEO of the station and established Hope Radio. Hope Radio broadcasts to South East Asia with a mission to preach the gospel in the most populated parts of the world.

Angel 3 - currently testing

Transmitter site: Medorm, Babeldaob Island - 100 kW.

Time/UTC	Days	Language	kHz	kW	Az.	CIRAF	Target area
1100-1200	irregular tests	English	9930	100	318	43,44	East Asia

Paul Gager on the BDXC-UK iog said he had a message from Hope Radio on 16 December 2021: "Thank you for contacting us about our test broadcast. We are going to be testing the frequency again tomorrow (December 17th) from 1100-1200 UTC and then this initial test will be done. We do plan to run future tests, but we don't have times set for those yet. Please feel free to pass along the information. We appreciate feedback on signal strength in different locations."

Angel 4 "Reaching South China, Laos, Myanmar, Nepal, Indonesia, Philippines, Bhutan, Vietnam, Cambodia, Thailand, India, Malaysia, and Bangladesh"

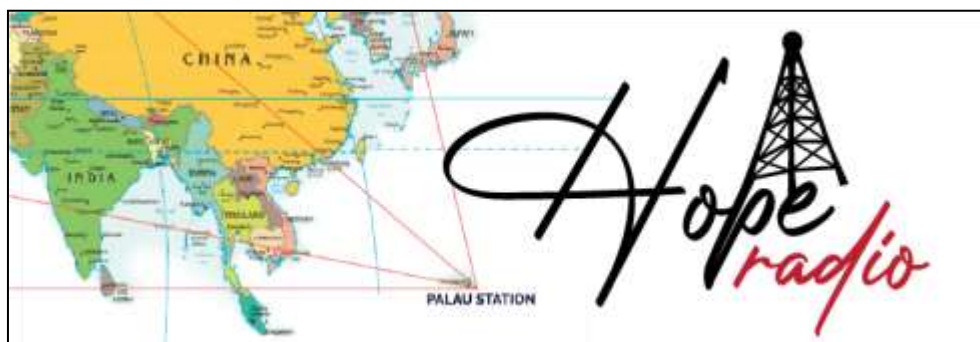

Transmitter site: Medorm, Babeldaob Island - 100 kW.

Papua New Guinea

National Broadcasting Corporation

NBC is Papua New Guinea's state owned broadcaster. Its head office is in Boroko, Port Moresby, and has approximately 20 locations around the country.

NBC Madang

Madang (old German name: Friedrich-Wilhelmshafen) is the capital of Madang Province on the north coast of Papua New Guinea. It was first settled by the Germans in the 19th century. NBC Madang on 3260 kHz (4 kW) is currently inactive.

NBC Bougainville

Bougainville, officially the Autonomous Region of Bougainville, is an autonomous region in Papua New Guinea. The largest island is Bougainville Island, while the region also includes Buka Island and a number of outlying islands and atolls. The interim capital is Buka, though it is expected that major government services and buildings will be moved to Arawa, following reconstruction. NBC Bougainville on 3325 kHz (5 kW) is currently inactive.

Wantok Radio Light

Wantok Radio Light is a radio station operated by Papua New Guinea Christian Broadcasting Network, a non-profit, non-commercial Christian ministry. They broadcast on 93.9 FM in Port Moresby, 105.9 FM in other provinces and on shortwave 7325 kHz (1 kW) throughout PNG and overseas, although the latter has been reported off-air due to a transmitter problem.

Philippines

International broadcasts on shortwave

Radyo Pilipinas Overseas (DZRP)

Radyo Pilipinas Overseas (callsign DZRP) is the overseas broadcast of the Philippine Broadcasting Service (PBS). Radyo Pilipinas is broadcast through the facilities of the International Broadcasting Bureau - Voice of America. The programmes being aired over DZRP are produced by PBS staff dedicated in serving the needs of overseas Filipino workers and Filipinos all over the globe.

Transmitter site: USAGM Transmitting Station, Tinang, Central Luzon, Philippines.

Note: schedule subject to confirmation; there may be further relays on shortwave via transmitters in Taiwan

Fu Hsing Broadcasting Station

Fu Hsing Broadcasting Station is a state-run radio station sponsored by Republic of China Armed Forces, located on the campus of Ming Chuan University in Taipei, Taiwan and is operated by the Ministry of National Defense.

Transmitter site: often reported as Kuanyin (10 kW) but WRTH says a visit to Kuanyin indicated this wasn't the site used.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>	<i>Tx site</i>	<i>kW</i>	<i>Az.</i>	<i>Target area</i>	<i>Notes</i>
0500-0900/1000	Daily	Chinese/Hakka	9410	Kuanyin?	10	ND	Mainland China	
			9774	Kuanyin?	10	ND	Mainland China	
			15375	Kuanyin?	10	ND	Mainland China	this freq currently off-air

Sound of Hope

Sound of Hope (SOH) is an international Chinese-language radio network. Along with New Tang Dynasty Television and The Epoch Times, it is part of a network of media organisations established by practitioners of the Falun Gong new religious movement. SOH serves the Chinese diaspora in US, Europe, Australia, Japan and South Korea on mediumwave and FM and broadcasts to China on an extensive number of out-of-band shortwave frequencies. Programmes are in Chinese and Cantonese, and also include relays of Radio Free Asia at times.

Transmitter sites: Pingtung and Miaoli, Taiwan (and possibly another) - all transmitters are low power - 1 kW or less.

Frequencies: See entry for China - "Target broadcasts to China" for a list of SOH's shortwave frequencies.

Tajikistan

Tajik Radio

Tajik Radio is part of the state-run Kimutai Televizion va Radioi (State Committee for TV and Radio Broadcasting).

Radioi Tojikiston (Tajik Radio 1)

Radio Tajikistan is the main radio channel of Tajik Radio.

Transmitter site: Yangiyo'l, near Dushanbe.

General target: Tajik domestic audience.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>	<i>kW</i>	<i>Az.</i>
2300-2000	Daily	Tajik	4765	100	ND

Alex Miatlikov comments on the previous Radioi Tojikiston schedule we had listed in this guide: "It seems that it's in Tajik language only. I monitored their online broadcasts at 3 and 9 UTC. There was no Russian. It's very doubtful that their online stream and SW broadcasts differ. I believe both Russian and Uzbek broadcasts can be deleted, so it's 23-20 UTC in Tajik." (Alexander Miatlikov, Ukraine, 23 April 2022)

Ovozi Tojik (Voice of Tajik)

Voice of Tajik is the external service of Tajik Radio.

0630-0644 and 1630-1644	Thu/Sat	Vietnamese language lessons for foreigners in English

VOV-4 for Ethnic Minorities in the Central Highlands

Tây Nguyên, translated as Western Highlands and sometimes also called Central Highlands, is one of the regions of Vietnam. It contains the provinces of Đắk Lắk, Đắk Nông, Gia Lai, Kon Tum, Lâm Đồng. This region is sometimes referred to as Cao nguyên Trung bộ (literally "Midland Highlands"), and was referred to during the former Republic of Vietnam as Cao nguyên Trung phần (literally "Central Highlands").

Target area: Central Highlands of Vietnam.

Time/UTC	Days	Language	kHz	Location	kW	Az.	CIRAF
2200-1600	Daily	Central Highland, Vietnamese	6020	Buon Ma Thuot, Dac Lac Province	20	ND	49

Note: Central Highland languages includes Bana, Ede, Giarai, Hmong, Koho, Sedang, Thai, M'Nong; may also relay VOV1 & 2 in Vietnamese at times.

VOV-4 for Ethnic Minorities in Northern Vietnam

Northern Vietnam is one of the three geographical regions within Vietnam. It consists of 3 administrative regions: the Northwest (Vùng Tây Bắc), the Northeast (Vùng Đông Bắc), and the Red River Delta (Đồng Bằng Sông Hồng). It has a total area of about 109,942.9 km². Tonkin is a historical exonym for this region plus the Thanh-Nghệ region. Of the three geographical regions, the oldest is Northern Vietnam, where the Vietnamese culture originated over 2,000 years ago in the Red River Delta, though Vietnamese people eventually spread south into the Mekong Delta.

Target area: Northern Vietnam.

Time/UTC	Days	Language	kHz	Location	kW	Az.	CIRAF
0400-0600	Daily	Dao, Ho Mong, Thai, Vietnamese	9850	Xuan Mai, Lang Son Province	50	ND	49

Note: may also relay VOV1 & 2 in Vietnamese at times

International broadcasts on shortwave

Voice of Vietnam External Service (VOV-5)

VOV-5 (VOV World) is for Vietnamese nationals residing overseas and foreigners around the world.
